

Windows and Doors Quality Checklist

Good Guys Contracting strict building standards will ensure that your windows and doors will be installed with Quality and Energy Efficiency that will last. The following details are just a few of the important details on our Quality Checklist that make our line of Vista Windows installed by our “in-house” team stand apart from the rest.

Tax Credit Compliant

Every window in our entire exclusive line of Vista Windows will qualify for the Tax Credit.

Top Quality Insulation

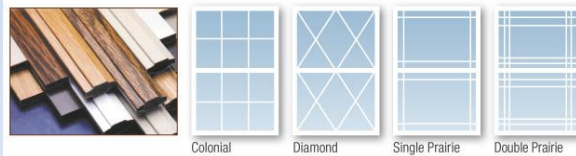

Our windows and doors are rated among the most energy efficient products in the industry, but we don't stop there. When we install any of our custom fit windows we flash around the entire window and use our low-expansion spray foam to provide Maximum Energy Efficiency and weather proofing.

Custom Colors

Our line of Vista windows offers a wide variety of 12 custom exterior colors and 4 interior wood grain colors with the leading polymer coating in the industry.

Custom Interior Grids

Maintenance-Free Exterior

We only use top quality Windows and Trim materials to give our customers a true custom look without the maintenance and headaches of traditional building materials.

Custom Size Windows

Every window is made to order and we can order to the 16th of an inch. What does that mean to you? Even a retro-fit window fits like it has been there forever.

Warranty

Once you register your new custom windows or doors on our website your warranty is immediately active. Every Vista window is backed by our Lifetime Limited Warranty, which is fully transferrable even to a second homeowner.
